

May 6, 1975

CLERK: LB 69 introduced by Senator Keyes of the 3rd District. Read title.

PRESIDENT: The Chair recognizes Senator Keyes.

CLERK: Mr. President, there are extensive amendments by the Appropriations Committee.

SENATOR KEYES: Mr. Speaker, sometimes during certain facts of life, things come out not as they are expected. This bill came out of committee. It's a hybrid. It's something. After I listen to it today I will decide whether my name will be on it or not. After I listen to all of the amendments that are on it, offered by Senator Stull, I assume he has some. I know Senator Marvel completely gutted it and gave us a different bill. My original bill I will support but let's listen to the amendments and see if they get accepted. Whoever wants to take them bless you. You have my permission.

PRESIDENT: Senator Marvel, your Committee amendment is up first. Would you want to speak to it, sir?

SENATOR MARVEL: May I direct a question to Senator Stull . . . or the Clerk? Do you have Senator Stull's amendment up there?

CLERK: Yes.

SENATOR MARVEL: May I make a statement on the committee amendment, Mr. President? Members of the Legislature, Senator Keyes in particular. LB 69 is an attempt to recoup a million eight hundred thousand dollars that comes out of the General Fund for the sale of license plates. The original committee amendment, in effect, would take the money . . . Well let's put it this way, once the license plates are sold that money goes into the Highway Allocation Fund. The committee amendments, originally, would take the money out of the Highway Allocation Fund which would disturb the construction of highways. So rather than do this, I think we should consider the Stull amendments. The Stull amendments would add \$2 to the new license plates, I believe. So I will ask unanimous consent that we pass over the committee amendments until Senator Stull has had a chance to consider his.

PRESIDENT: Seeing no objection, it will be the ruling of the Chair that we hold the committee amendments. We will take up, at this time, Senator Stull's amendment.

CLERK: Mr. President, the Stull amendments strike the committee amendments and insert some different matter. The Stull amendments are found on page 1562 of the Legislative Journal.

SENATOR STULL: Mr. President, members of the Legislature. This is a rather lengthy amendment but it actually makes a very small change. I would have this word to Senator Keyes. I would be happy to put my name on the bill with him, or I would put my name on and let him withdraw his, if he doesn't like this amendment. Senator Marvel said that it was going to cost a
